Location: National Louis University's North Shore Campus, Room 468  
5202 Old Orchard Road, Skokie, IL 60077

*Earn CPDUs*

*Graduate Credit Available*

The SLANT System® is a research-based, multisensory, structured literacy professional development program. It is designed to improve teachers' skills in teaching reading, spelling, and writing to individuals who have been unsuccessful using traditional approaches, or who are considered "at risk". The SLANT System® is effective as an intervention program for both Tiers 2 & 3 in an RTI / MTSS model and can also be used as a supplementary reading program in general education classrooms where it provides balance to literature-based reading approaches.

### The Introductory Class

This course presents an overview of the SLANT System®. It covers the scope and sequence of the SLANT System®, the content of a typical lesson, characteristics of students for whom SLANT® is appropriate, basic diagnostic procedures, and a systematic introduction to language structure (letter/sound relationships, syllable types, & spelling rules). Participants will develop an overall understanding of the SLANT System®, learn how to prepare a typical lesson, and gain insight into language structure. The Introductory Class is a prerequisite for continuing on towards teaching level certification in the SLANT System®. More information on how this Introductory Class can be used towards Teaching Level Certification, is available at <http://www.slantssystem.com> or email: [info@slantssystem.com](mailto:info@slantssystem.com)

***Registration is \$915 to include CPDUs; (\$895 without CPDUs) and includes materials valued at \$350. For questions or additional information contact***

***Geller Educational Resources at 847-821-9609, or email: [info@slantssystem.com](mailto:info@slantssystem.com)***
